SWIM LESSON LEVELS

THE SCIENCE OF SWIMPLAY®

Goldfish was created by parents, for parents, with the goal of helping kids build essential swim skills to keep them safer in and around the water. But our program does more than that -- it gives kids a platform to build life skills that help them make waves in life.

We do this by embracing what we call The Science of SwimPlay®; a research-based philosophy that teaches through guided play in a fun, safe environment. So while we're focused on the serious stuff, kids are focused on the fun. The fact is, your child's potential is in there. Sometimes, you just need to add water.

- ✔ Proven, confidence-building curriculum developed by a 17-time Collegiate All-American swimmer with a degree in Early Childhood Development
- ✔ Small class sizes help your children get the attention they deserve
- ✔ Our professional, trained and certified swim instructors complete our 40-hour training program
- ✔ Your children get weekly feedback, quarterly progress reports and constant monitoring of their development
- ✔ Have to miss a class? We offer free make-up lessons that work around your family's ever-changing schedule

JUST A FEW OF OUR AMENITIES...
